Strictly Come Dancing: Who will waltz their way to the glitterball?

Year 1 children share their predictions

I think that Rose and
Gio will win because
they are amazing
dancers. I loved
the frozen dance.
They scored 37 points.
One step took 4
hours to learn. They
are the best!
By Elliot

I think Tilly is
the best.
I hope she wins the
glitterball.
She is my favourite.
We love watching her.

Strictly come dancing is
on week 11. Saturday 4th of
December was the quarter-
final stage of the dancing
competition. Next week is the
semi-finals, after which is the
Grand final where we will
know who will waltz their
way to the glitterball.

Izzy 5

I love to watch
Strictly come dancing
because they do
beautiful dancing and
that they enjoy it. I
think Tilly and Nikita will
win as they train hard
and work well as a
team.

COP 26 came to Glasgow! Climate Change Conference astounds all.

Cop26 is in Glasgow and people
and the government gather together
at a big meeting and decide
what changes we should make
for our planet.
To gether lets make a difference.

COP 26 came to Glasgow! Climate Change Conference astounds all.

COP26 has just finished, but still
walk if possible and you might get a
badge. There were 40,000 delegates
and we're aiming for Net Zero by
the middle of the century. They
agreed to reduce the use of coal but
not entirely. They spoke about not using
more than our fair share of resources.

With these measures we are aiming
for less than 1.5°C temperature
increase. Cars cause a lot of pollution
so we should buy electric cars instead.
One thing that would help the
environment is planting trees. Trees
are good because they absorb CO_2 .
They produce oxygen which we need.

World leaders are meeting in Glasgow between 31 October and 12 November.

Thousands of people will meet from around the world to attend talks.

The aim is to reduce the effects of climate change like ice caps melting and rising sea levels.

Goals have been set for the leaders to agree on these are:
1. Reduce the amount of carbon released into the atmosphere by reducing the use of fossil fuels like coal.
2. To protect communities and habitats by building flood defences and helping ecosystems

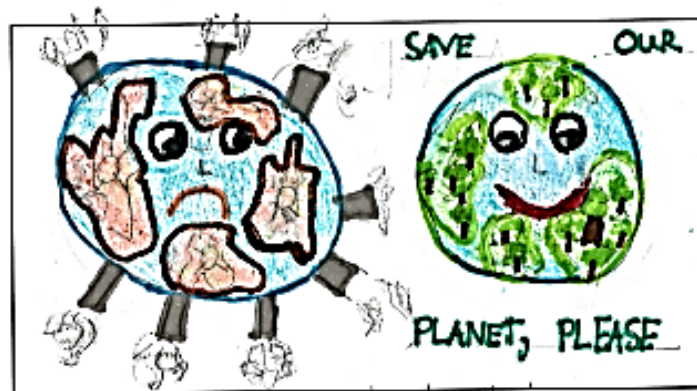

3. To secure funding to support these plans.

4. For everyone to work together.

COP 26 came to Glasgow! Climate Change Conference astounds all.

COP 26 took place in Glasgow between 1-12 November. Many important people from nearly every country came to talk about saving our planet, Earth.

During COP 26 the leaders agreed to make our world a better place. They agreed to reduce temperature rise to 1.5 degrees. The actions they will take include cutting less trees, making less pollution and using less fossil fuels like carbon, oil and gas.

I liked what Pope Francis said during COP 26. He said that we should be brave stand up and speak out against Climate Change and take action to protect our beautiful planet. Each one of us can make a difference by walking or cycling to school, recycling, using less electricity, using less water when you brushing your teeth, not wasting food and saying no to plastic.

How can you help in these ways?

What are you going to do to stop Climate Change and to save our beautiful planet Earth?

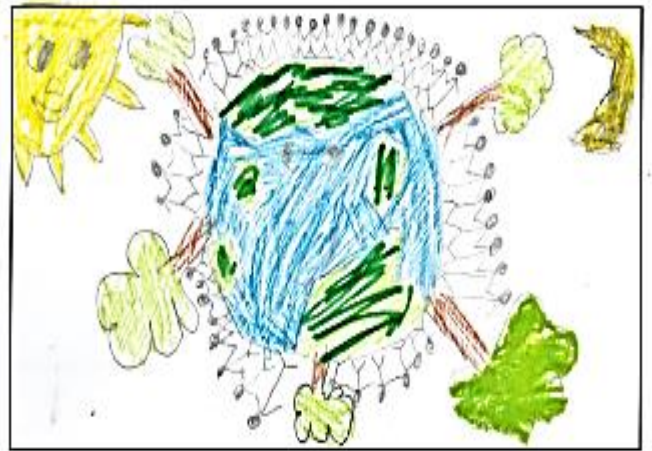

COP 26 came to Glasgow! Climate Change Conference astounds all.

Do you wonder what global warming is? It happens when the heat from the sun is trapped on the Earth by different gases. This makes it hotter and harder for people and animals to live.

Cop is the conference of parties where countries and companies meet to discuss what to do. This year they came to the UK to Glasgow.

They agreed to fight the global warming by doing these things planting trees because they absorb gases. Also to stop cutting trees. Some countries promised to stop burning coal. Burning coal emits bad gases. Fighting the global warming is important to keep the Earth a good

place to live for us and children of tomorrow.

First what does 'COP26' even mean? Well, 'COP' stands for 'Conference of parties' - a meeting that involves lots of different people working towards the same goal. COP26 is the 26th meeting of the Members of the 'United Nations Framework Convention on Climate Change' (UNFCCC). ~~stop~~ stop using cars! Because if you use lots of cars our earth will be full of greenhouse gases. ~~we use lots of~~ If we use lots of cars it will ^{create} gas and make our world so HOT! Instead of using cars we can walk.
